

VETERINARY SURGEONS

POULTRY VET POSITION

We're seeking a **highly motivated poultry vet** to join our progressive, fast-paced team supporting leading commercial poultry operations. This is a standout opportunity for a vet with a passion for flock health, innovation, and industry impact, looking to advance their career with hands-on experience, strong mentorship and real opportunities for progression.

Whilst experience in poultry medicine is beneficial, it's not essential as we offer full training and support.

You'll work closely with skilled vets across broiler, layer, breeder, and hatchery systems, with access to diagnostics, data-driven flock health planning, and continuous professional development.

We offer a competitive and well-rounded benefits package designed to support the health, well-being, and long-term success of our veterinary team.

Location: Supporting our Dungannon, Monaghan and Ballymena practices.

Qualifications required: RCVS/VCI registration

For further information contact our HR team.
